CLAIMS

The following is a complete listing of claims pending in the application:

1. (Amended) A composition, comprising a mixture of at least two iscom complexes, wherein: chosen from iscom and iscom matrix complexes, each complex comprising one different saponin fraction from Quillaja Saponaria Molina.
 - a. ~~said iscom complexes are selected from the group consisting of iscom and iscom matrix complexes, and~~
 - b. ~~said at least two iscom complexes comprise at least two different saponin fractions from Quillaja Saponaria Molina.~~
2. (Amended) A composition according to claim 1, wherein ~~said iscom complexes are iscom,~~ comprising a mixture of at least two iscom complexes, each complex comprising one saponin fraction from Quillaja Saponaria Molina.
3. (Amended) A composition according to claim 1, wherein ~~said iscom complexes are iscom matrix complexes,~~ comprising a mixture of at least two iscom matrix complexes, each complex having one saponin fraction from Quillaja Saponaria Molina.
4. (Amended) A composition according to claim 1, comprising a mixture of at least two iscom and/or iscom matrix complexes, wherein each complex comprises ~~a different one~~ one saponin fraction from *Quillaja Saponaria* Molina, which fraction may be a different one in the different complexes.
5. (Amended) A kit, comprising at least two parts, wherein each part of said ~~parts~~ comprises one iscom complex or one iscom matrix complex, ~~and~~

~~each of said iscom complex or iscom matrix complex comprises one~~
includes a saponin fraction from *Quillaja Saponaria* Molina, which
fraction may be a different one in each different complex.

6. (Withdrawn) A composition according to claim 1, further comprising at least one additional adjuvant, wherein said at least one additional adjuvant is not a saponin fraction from *Quillaja Saponaria* Molina.
7. (Withdrawn) An immunomodulating pharmaceutical, comprising a composition according to claim 1.
8. (Withdrawn) A method of vaccine preparation, comprising providing a composition according to claim 1 and at least one antigen; and preparing a vaccine therewith.
9. (Withdrawn) A method for preparation of an adjuvant, comprising:
 - a. providing at least one composition according to claim 3, and
 - b. preparing an adjuvant therewith.
10. (Amended) A composition according to claim 1, wherein said the saponin fraction from *Quillaja Saponaria* Molina is ~~selected from the group consisting of~~ fraction A of *Quillaja Saponaria*, fraction B of *Quillaja Saponaria*, fraction C of *Quillaja Saponaria* Molina, Q VAC, ~~and or~~ or Quil 1-21.
11. (Amended) A composition according to claim 1, wherein said the saponin fraction from *Quillaja Saponaria* Molina is ~~selected from the group~~

~~consisting of~~ fraction A of *Quillaja Saponaria* Molina, fraction B of *Quillaja Saponaria* Molina, and or fraction C of *Quillaja Saponaria* Molina.

12. (Amended) A composition according to claim 1, wherein the portion of ~~the said~~ mixture comprising the saponin fraction comprises from 50% to 70% by weight of fraction A of *Quillaja Saponaria* Molina and from 30% to 50% by weight of fraction C of *Quillaja Saponaria* Molina.
13. (Amended) A composition according to claim 1, wherein the method according to claim 9, wherein said saponin fraction of said the iscom composition comprises from 30% to 50% by weight of fraction A of *Quillaja Saponaria* Molina and from 50% to 70% by weight of fraction C of *Quillaja Saponaria* Molina.
14. (Amended) A composition according to claim 1, wherein said the saponin fraction from *Quillaja Saponaria* Molina is one of Qull 1-21.
